CleverHelpers

Retrofit solutions for a safe and efficient industrial truck – immediately ready for use!

Quick and simple solutions help immediately - that is the basic idea of the **CleverHelpers** product family.

CleverHelpers focus on the benefits of the user: more safety, more efficiency in the daily use of the forklift truck. Each avoided damage protects people and loads. **CleverHelpers** make forklift driving much easier.

As Europe's leading fork manufacturer VETTER has the expertise you can rely on.

* The monitor is connected to the power supply of the forklift. Mechatronic training or similar qualifications are recommended for this purpose.

ZEBRA WARNING BAR BE SEEN IN TRAFFIC

- ▶ Improved visibility for traffic participants
- ▶ Accident prevention
- ▶ Magnetic quick mounting
- ▶ Special reflector foil
- ▶ Easy mounting on the forklift when not in use
- ▶ Also recommended for in-house traffic

Magnetic entry pockets for the fork tip
(NO machining of the forks necessary).
Simply attach ZEBRA to the forklift when not in use!
