

ZEBRA Warning bars

A must for road traffic

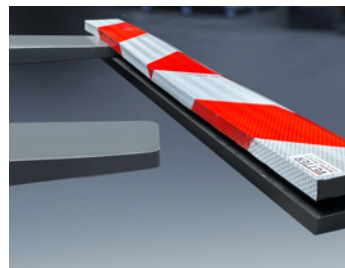

One reason for accidents with (fork) lift trucks: forks are hard to recognize at first sight. With the innovative **ZEBRA** warning bars made by VETTER you are on the safe side.

- ▶ Accident prevention
- ▶ Increased visibility for example on car parks, at exits, in poor visibility, during in-house traffic and in workshops
- ▶ Quick and easy assembly
- ▶ Always at hand: Easy mounting on the forklift when not in operation

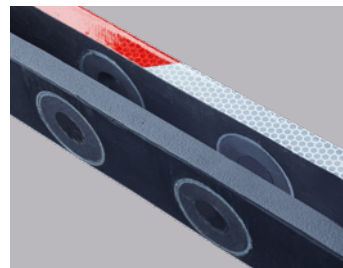

For safety reasons it is highly recommended to use warning bars when operating forklift trucks in road traffic.

Visible from afar:
special reflector foil

Magnetic entry pockets
(NO machining of forks necessary)

4 magnets at the outer and inner side each

Easy mounting on the forklift when not in operation

Article No	Description	Dimensions	Application	Weight
WBRW-800-8M	Warning bar red-white with 8 magnets	80 x 40 x 800 mm	up to 15 mm tip thickness	2,3 kg
WBRW-1000-8M	Warning bar red-white with 8 magnets	80 x 45 x 1000 mm	up to 25 mm tip thickness	2,6 kg
